

- Fatigue performance of recycled hot mix asphalt: A laboratory study, Advances in Materials Science and Engineering, IF 1,299, Hindawi, p. 10 (with N. Baldo)

- Piste di cantiere per l’avvicinamento all’argine durante le emergenze, in “Manuale sulla difesa dalle esondazioni e sulla chiusura delle rotte arginali” by L. Da Deppo and C. Datei (2015), par. 3.8, Ed. Progetto, pp. 145-152.

- Geocomposites against Reflective Cracking in Asphalt Pavements: Laboratory Simulation and Field Application, Road Materials and Pavement Design, DOI 10.1080/14680629.2015.1044558, IF 0,964, on line 27/05/2015(with E. Pasquini, F. Canestrari).

- Laboratory Investigation on Foamed Bitumen Bound Mixtures made with Steel Slag, Foundry Sand, Bottom Ash and Reclaimed Asphalt Pavement (2012), Road Materials and Pavement Design, iFirst, Taylor & Francis, pp. 1-22 (DOI:10.1080/14680629.2012.742629) ISSN 1468-0629 print/ISSN 2164-7402 online. IF 0,373 (with N. Baldo).

(proceedings, other works, since 2010)

- Proposal of correlations between different soil bearing capacity parameters based on extensive test campaigns (2018), Proceedings International Conferences on Traffic and Transport Engineering ICTTE Belgrade pp. 577-583 (with E. Pasquini, G. Giacomello, A. Baliello).

- Preliminary investigation of mechanical and functional properties of coloured asphalt pavement surfaces (2018), Road and Rail Infrastructure V, Ed. Stjepan Lakušić, Zagabria (Croatia), pp. 519,525 (with E. Pasquini, G. Giacomello, A. Bialiello).

- Experimental study aimed at highlighting warnings for proper design, construction and control of geocomposite-reinforced asphalt pavements (2018), 13th ISAP Conference on Asphalt Pavements, Fortaleza (BR), 19-21 June, pp. 8, (with E. Pasquini, G. Giacomello, A. Bialiello).

- Comprehensive performance characterization of warm mix asphalt containing steel slags: a laboratory study (2017), 7th International EATA Conference, June (with A. Bialiello, G. Giacomello, E. Pasquini).

- Warm chemical additive to improve water resistance of asphalt mixtures containing steel slag: a multi-scale approach (2017), Sixteenth LJMU Annual International Conference on Asphalt, Pavement Engineering and Infrastructure, Liverpool, February (with E. Pasquini, G. Giacomello, A. Bialiello).

- Dissipated Energy Analysis of Four-Point Bending Test on Asphalt Concretes made with Recycled Aggregates, 9th International Conference on Road and Airfield Pavement technology, Dalian, 2015, paper 861, pp. 9 (with N. Baldo).

- Viscoelasto-plastic Modelization of the Stone Mastic Asphalt Creep Behaviour, 9th International Conference on Road and Airfield Pavement technology, Dalian, 2015, paper 862, pp. 12 (with N. Baldo).

- Fatigue characterization of modified asphalt concretes by means of dissipated energy approaches, 6th International Conference on Bituminous Mixtures and Pavements, Thessaloniki, 10-12 June 2015, Session III pp. 130-135 (with N. Baldo).

- Moisture damage and low temperature cracking of bituminous mixtures made with recycled aggregates, 6th International Conference on Bituminous Mixtures and Pavements, Thessaloniki, 10-12 June 2015, Session V pp. 77-82 (with N. Baldo).

- Re-use of marginal aggregates in cement bound mixtures for pavement foundations (2014), 12th International Symposium on Concrete Roads, 23-26 September, Prague (CZ), pp.8 (with N. Baldo).

- Permanent deformation resistance of asphalt concretes made with electric arc furnace steel slags (2013), 17th Conference on Environment and Mineral Processing & Exhibition, Ostrava (CZ), 6-8 June, VSB TU Ostrava CD-ROM, pp. 1-6 (with N. Baldo).

- Mechanical properties of porous asphalt modified with road tyre rubber using the dry process (2011), 5th International Conference Bituminous Mixtures and Pavements, 1-3 June, Thessaloniki, pp. 10 (with N. Baldo)

– Mix design and performance characterization of bituminous mixtures with electric arc furnace steel slags (2011), 5th International Conference Bituminous Mixtures and Pavements, 1-3 June, Thessaloniki, pp. 10 (with N. Baldo)

– Experimental investigation on speed control using a driving simulator (2011), AutomotiveUI 2011, 3rd International Conference on Automotive User Interfaces and Interactive Vehicular Applications, Workshop “Subliminal perception in cars”, 29 November-2 December, Salzburg (A), pp. 6 (with S.D. Barbati).
